

DECK LOG

U. S. Naval Sea Cadet Corps Alamo Battalion
September 2023

CHART YOUR COURSE: CHOOSE ADVENTURE

During the summer months USNSCCAlamo Battalion Sea Cadets participate in recruit, leadership, and other advanced training. Summer training helps to build leaders of character with high standards of honor, respect, commitment, and service. Summer training allows Sea Cadets to gain unique and valuable experiences that incorporate hands-on learning and teamwork. Programs include seamanship, sailing, aviation, security, robotics, medical, STEM, SCUBA, submarines, photography, culinary, special forces training, SEAL training and an international exchange program. Sixteen Alamo Battalion Sea Cadets participated in summer training. Below are a few of the summer training experiences of Alamo Cadets.

RECRUIT TRAINING at North Fort Hood Cadet Participants: 10

Recruit Training (RT) is a vital foundational training that instructs Cadets in what it means and takes to be a US Naval Sea Cadet. It is a fast paced, age appropriate program focused on basic military instruction and team building. This training must be completed before Cadets can participate in Advanced Training.

AVIATION TRAINING at Fort Worth, Texas

Petty Officer Third Class Ryan Paul: "An amazing experience with the most exciting hands-on learning you can receive in the Sea Cadets made entirely possible by the amazing Navy and Marine Corps personnel aboard NAS JRB Fort Worth! Truly it was the best training I have completed because it allowed me to work alongside aircrew with whatever needed to be done whether it be helping assemble an engine for a C-130 or helping preflight an F-18. I would definitely recommend it to anyone interested in aviation!"

MEDICAL TRAINING at Camp Beauregard, Louisiana

Seaman Brooklyn Kohlleppel: "It was one of the most fun things I've done. I'm so glad I had the opportunity to do it."

FIELD OPERATION in Milwaukee, Wisconsin

Seaman Zachary Davidson: "A true statement to camaraderie, guided by knowledgeable and motivating instructors who establish both discipline and unity."

STEM CAMP at the US Naval Academy

Seaman Yusuf Mamedov: "The USNA's Summer STEM Camp was an enriching dive into the STEM fields at the beautiful Naval Academy campus. I cherish every moment I had there, making many ever-lasting friendships."
